Adding New Payment Methods to OpenBravo

You can add additional methods of payment to the Voucher tab in the payment screen. This adds additional options to the drop-down list where it says Voucher in the below.

Openbravo POS - 2.30	oint of	sale designe	ed for touch screen	s.									powered by ပ႐ုဇဂျပ	ເດມບ.
Main Image: Constraint of the second secon	<	(12: Mr John S My new pro Boot Cate Hom Sale	rt4 415) Payment To Cash Cash Card Card Card Free	Price £ tal Type Type	299 £1	Units X1 15.38 Remaini Voucher	Taxes (0 £0.00	Valt	12.99 + (7 ² / ₁ 4 ⁵ / ₁ 1	• % off Lin		× Iempt CE 8 5 2 9	• Open	
				•				5	V (ж	Cancel			

The first thing you need to do is to define the display labels for the new payment methods (this is because OpenBravo is designed to work internationally, so it can have text in different languages).

To define the label find and open the pos_messages.properties file. It will be in C:\Bertrams\Openbravo POS\locales (C: might be different if you have Bertline installed on a different drive). You can open this file with Notepad.

Once you have opened this file find the transpayment labels using ctrl+f and entering transpayment. The file should look something like the below – what transpayment entries you already have will depend if you have had any additional payment methods set up previously.

pos_messages.properties - Notepad		_ 🗆 🗙
File Edit Format View Help		
<pre>stock.out.refund=(out) refund</pre>		
stock.out.sale=(out) sale		
tab.cashrefund=Refund	Find	
tab.cheque=Cheque		
tab.chequerefund=Cheque	Find what: transpayment	
tab.tree=Free	- Disselfan - Cancel	
tab. paper=Voucher		
title.changepassword=Change password	Match case O Up O Down	
title.editor=Editor message		
transpayment.cash=Cash		
transpayment cashout=(n) Cash		
transpayment.cashrefund=Refund		
transpayment.cheque=Cheque		
transpayment.chequerefund=Cheque refu	nd	
transpayment.magcard=Card		
transpayment.magcardrefund=Card refun	d	
transpaýment.paperin=Note input		
transpayment.paperout=Note output		
Visor Title=Openbravo POS		-
A Contractor openior avo Pos		

Add a new line for each additional payment method you want. The line should have transpayment then have a full stop followed by a 1-word identifier for the new payment method followed by an equals sign and then the description you want to show within OpenBravo e.g.

transpayment.Token=Book Token

You need to make sure the 1-word identifier is not one already in use.

If you have multiple till points with OpenBravo on you will need to make these changes to the file on each till (make sure you get the 1-word identifier exactly the same on each till).

Openbravo POS - 2.30	of sale designed for touch screens.		powered by OPCOL	ם ב ים י רמטט ⁰
Main 🛞	Maintenance			
Sales	Point of sale			
Customers	Users	🕵 Roles	Resources	
Close cash	The Warehouses	Floors	Tables	
Administration 🛞	Reports			
Customers	users			
V Sales				
System (*)				
Change password				
Printer				

Now save the property file and on one till go into OpenBravo and go to Maintenance

Then select Resources and find the payment.paymentTypes on the left hand side:

b Openbravo PO5 - 2.30			
Openbravo POS is a poin	nt of sale designed for touch screens.		powered by openbrouo
Main 🛞	Resources		
Sales Edit sales	35 / 37

RHTill - General jdbc:firebirdsql:java://lo	ocalhost/shopdb		Administrator

Now amend the right hand side to add the 1-word identifiers for the additional payment types you added with each identifier on a separate line:

Now click the save icon (the disk icon at the end) and exit and restart OpenBravo. You will now see the new options in the drop-down list in the Voucher payment screen.
